## SERIE ANIMALS SERIES special projects

### Technical information

**Animal:** Build in polyester painted by mass, with gel-coat of predominant colour and anti-graffiti treatment.

**Surface:** Stepable zone realized in high resistance continuous wet-pour rubber surfacing (EPDM).

**Anchoring:** Galvanized Steel for mounting on concrete foundation.

### Technical data

**Assembly:** 2 pers. 4 hours.

**Weight:** 500 Kg.

**Total high:** 2,4 m.

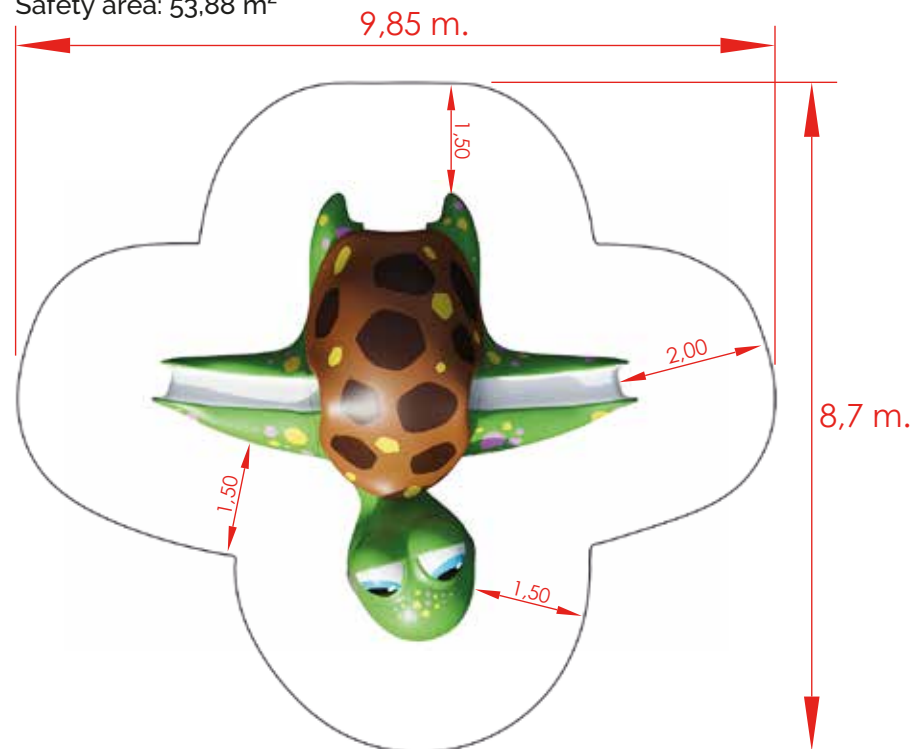

**Free fall height:** 1,00 m.

**Safety area:** 53,88 m<sup>2</sup>.

**Biggest element dimensions:** 3 m.

**Spare parts disponibility:** 3 years.

MULTIGAMES THEMED AREAS

SERIE  
**ANIMALS**  
SERIES  
*special projects*

**Installation:**

Anchored to the concrete floor with expansion bolts all around the perimeter using the base tab. Finished with compacted material coating either continuous wet-pour rubber surfacing or rubber tiles.

**Maintenance:**

Checking: all fixing points, screws and bolts must be periodically checked and tightened again if necessary. The checking date must be annotated in order to establish a control.

**Inspections.**

1. Routine visual inspection. An eye and functional inspection will be performed to verify that you have not suffered any vandalism damage.
2. Functional inspection. This inspection will be carried out with a periodicity of 1 to 3 months and attention should be paid to the components "sealed for life" and the equipment whose stability depends on a post.
3. Annual inspection. A complete inspection of the whole set will be carried out in order to verify that it meets all the sections of the standard and that it has not been modified.
